Synopsis of Episode Two - - - - - "THE MENACE FROM THE SKY" ✓

As John Densmore brings the knife close to Ann Calvin's throat, she tells him that she will disclose the secret hiding place of the fox skin. John replaces his knife and Ann jumps for the door. John realizes that she has only tricked him. He carries her from the house and puts her in the care of one of his Indians. As John and his two Indians carry Ann away, Tarka -- The Calvin's Indian butler -- is awakened by the barking of Ann's dog. He starts in pursuit on foot. Robert Winslow, foreman of the Calvin ranch is also awakened. He runs from the house, jumps to his horse and races after Ann's abductors. John sees Tarka running after them and shoots, wounding him slightly. Robert overtakes Tarka and learns from him that John has ridden off down the left road. Robert races after John. But John has sent the Indian carrying Ann down the right hand road and when Robert overtakes John and the other Indian he has a stiff fight on his hands. He sends the Indian sprawling over the bank, ropes John from his horse and leaves him, apparently unconscious on the road. Then he doubles back to investigate the tight hand road. Meanwhile, the Indian, Jake, has carried Ann to an old shack where another friend of Baxter's lives. Hawk Baxter is a power in the underworld, who is helping John in his endeavor to secure the secret of the Calvin mine, the location of which is written on the back of a blue fox skin. Robert finally reaches the shack but he is met at the door by the American who denies any knowledge of Ann. During this time, John has gotten in communication with Baxter, who has arranged for an airplane to pick Ann up at the shack and carry her to a hidden Indian village. Baxter and John start for the village in a fast racing car. Robert hears the airplane as it circles over the shack and wheels his horse to race back for the cabin. But

he sees that such pursuit is hopeless so he races for the aviation field where he secures the fastest ship in the service. In this he starts in pursuit of the ship which is carrying Ann away. Overhauling the ship, Robert climbs from his plane into Ann's. Steve, the pilot of Ann's ship, sees that they are almost over the Indian village so he cuts loose the parachute to which he has strapped Ann, hoping that she will land in the village. At least he will prevent Robert from rescuing her. Jake grabs Robert around the neck and is forcing him over the side as Ann drifts down on the parachute to land - - - WHERE?
